

Safeguarding

The church has an up-to-date policy. Here is an extract:

As members of this church we commit ourselves to the nurturing, protection and safeguarding of all children and young people associated with the church and will pray for them regularly.

The church will take proper care in the selection and appointment of those working with children and young people, whether paid or voluntary. All workers will be provided with appropriate training, support and supervision to promote the safeguarding of children.

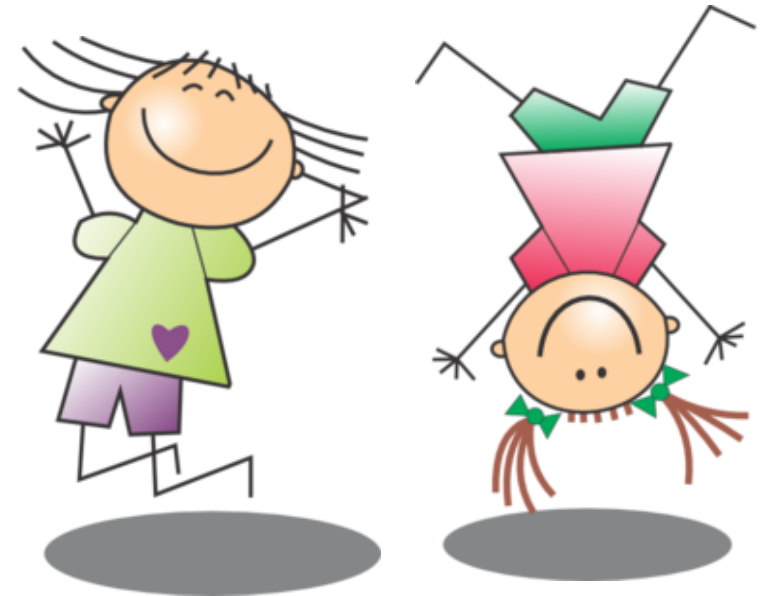

Minister
